- AWS
- React
- C#
- Docker
- Bash
- CI/CD
- Postgres
- Git
- Testing Frameworks
- IaC Frameworks
- AGILE SCRUM

### Soft Skills

- Time Management
- Continuous Learning
- Communication
- Attention to Detail
- Adaptability
- Problem Solving

### Certifications

### About Me

I am a highly skilled and motivated software engineer with two years of experience in designing and developing innovative solutions. I excel in the entire software development life cycle, from requirements gathering to coding, testing, deployment, and maintenance. My technical knowledge and team-focused mindset allow me to thrive in fast-paced, collaborative environments. My strong communication skills, coupled with a proactive learning mindset, enable me to effectively translate complex technical concepts into user-friendly solutions. I am passionate about creating robust and scalable software applications and seek challenging projects to contribute my talents and deliver exceptional business value.

### Professional Experience

Koch Global Services | Software Engineer  
2021-2023

*Worked as an internal software consultant to complete enhancement and support efforts for several software platforms and initiatives throughout Koch: Koch Legal, Enablon, FSM, and Treasury.*

- Team code reviews
- Application development, testing and support
- Database administration and data management
- Created an alert system to automatically notify the team of any data that the daily integrations failed to process, saving several hours of manual support work

Catalyte | Developer Associate  
2020 - 2021

*Worked through the 5-month Catalyte software developer curriculum at Koch Industries to learn modern, full-stack development skills and best practices*

- First to finish the program at Koch Industries
- High score on the final assessment: a full stack medical site for managing patients and visits. Built using Spring Boot and React frameworks

### Education

Wichita State University | Computer Engineering  
2017-2018
